Authoring:	<input type="text"/>						
Contact:	<input type="text"/>	Email:	<input type="text"/>	Tele:	<input type="text"/>	Fax:	<input type="text"/>

SOURCE MEDIA REQUIREMENTS

- All HD Blu-ray images must be authored to accept AACS encryption. Vantiva can accept both pre-encrypted and unencrypted AACS images. Unencrypted AACS images will be submitted to AACS for certification.
- Aspera source delivery is preferred. This method requires an established Aspera connection with Vantiva. The package must be identified using the Vantiva Global Identification Label (GIL) naming convention. Contact your assigned Vantiva Customer Service Representative for GIL naming requirements.
- If physical media is provided, Vantiva accepts LTO or DLT tapes or a USB 2.0 compatible hard disk. The image supplied on LTO or DLT must be archived using Windows Backup format. Contact your assigned Vantiva Customer Service Representative for format requirements on images supplied via hard disk.
